COMMUNICATION IN HEALTHCARE (AOCS: anglais oral courant de santé)

■ **OBJECTIVE**: speaking in everyday English in a variety of medical contexts, with a review of the language basics and management of stress

■ **FOCUS ON**:
  – *Discovering common vocabulary in various medical contexts to enrich lexical bases and facilitate speaking*
  – *Reinforcing grammatical bases acquired in secondary school*
  – *Learning to pronounce English more precisely (sounds and tonic accents)*
  – *Discovering improvisation in various activities (main activities in mini-groups) to learn how to manage it (control of English and stress)*
  – *Learning to manage various medical situations in common medical English (consultations, exchanges between colleagues, etc.)*
  – *Unblocking speech when stress is dominant*

■ 12 **compulsory** lessons : 2hrs / week (Thursday afternoon)

■ Small groups

■ Open to **PC2/PC3/PH2/PH3/Odonto 2+3**

■ **Priority given to students who feel they need to work on their English more!**

■ **EXAM**:
  – *Communication (tutorial) in class (1 per student)*
  – *Oral exam (10 min) : full non-prepared consultation/exchange*
